

Beech Class Weekly Update

Friday 22nd September 2023

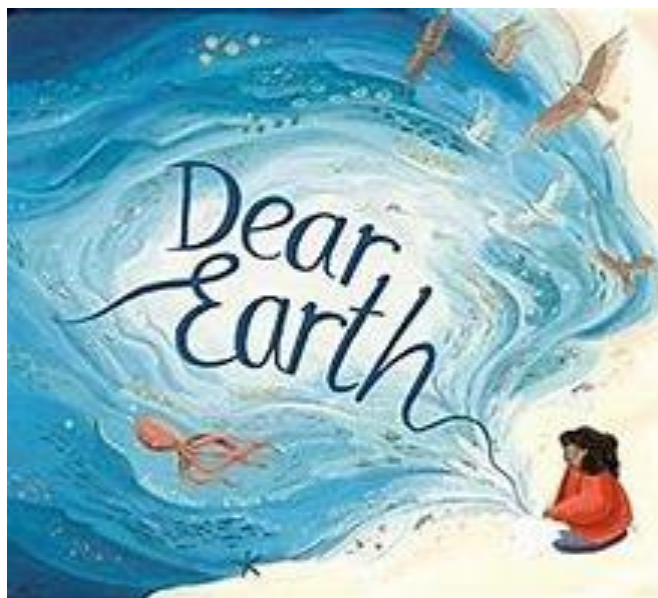

In Maths, Year 1 children have been counting on from numbers and finding missing numbers on number tracks. This is something you could continue to practice at home. Choose a number between 0 and 20 and ask your child to count on from that number.

Year 2 children have been making numbers up to 100 using tens and ones. This week we introduced place value charts. They were a huge hit!

During one of our reading sessions we shared the book, Dear Earth. It is such a beautiful book. Please do ask your children about the letter to Earth. This is something you might choose to do together at home too.

The children have been very taken by our Design and Technology unit this half term. Our design brief is *'to design and make a simple badge with a logo design which represents the things you love about where you live.'*

This week we explored how to strengthen paper.

Check out the photos on the next page!

Thank you for your support. Have a lovely weekend, Mrs. Oliveira
