

Beech Class Weekly Update
Friday 3rd November 2023

In maths we were learning fact families in maths. Here is a sample of what this looked like:

3 + 1 = 4

1 + 3 = 4

4 = 3 + 1

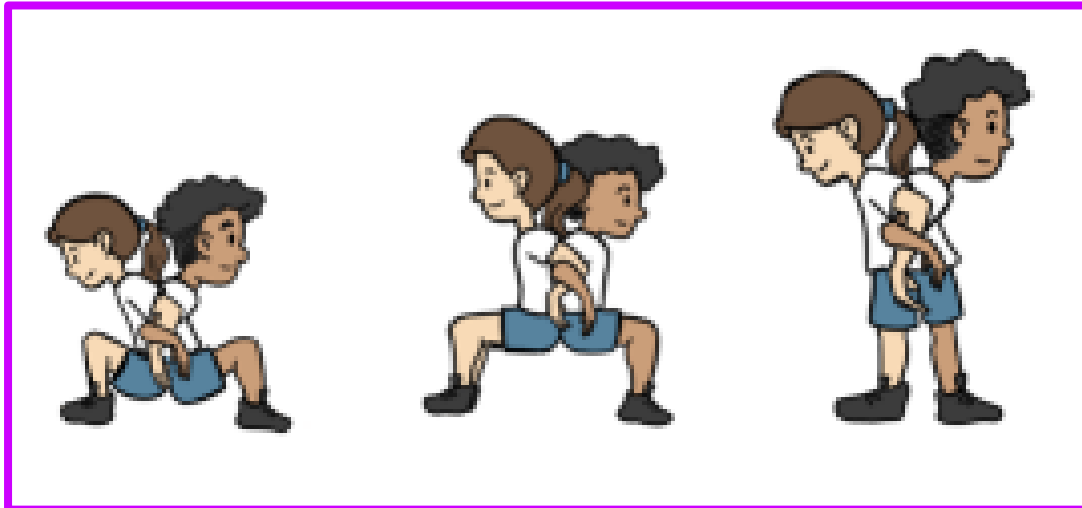

4 = 1 + 3

Fact families

This half-term, we will be writing a non-fiction report about Polar bears. This week we wrote captions about what Polar bears look like. You could ask your child to teach you some facts about Polar bears at home. They've loved it!

In PE we begun our unit of Team building. This was great fun. They took part in a range of activities to support the development of their communication. Here is an example: Partner Stand

In pairs, pupils start sitting back to back. Pupils must link arms and try to stand up without touching the floor with their hands or unlinking their arms.

Pupils discuss what they need to do and explore some ideas. 'Trust your partner. Push your backs together to balance and stand up. Work together to find the balance between you. Talk to each other to know when to start moving.'

The children also had a Halloween themed yoga lesson with Mrs. Benjamin!

a big
thank
you

Thank you for your continued support -
we really appreciate it!

Mrs. Oliveira
