

Beech Class Weekly Update Friday 4th November 2022

That week went by in a flash! We didn't even manage to get any pictures as we were so busy but here is a little snippet of what we've been up to.

In math's we were using the part whole model to partition numbers in different ways. Here is how it works:

In English, we were studying the importance of capital letters and ensuring we know what they look like and how to write them carefully.

In history we were learning about Chichen Itza. This might be something you'd like to discuss and learn more about at home.

Have a lovely weekend,
Ms. Keogh
