

Beech Class Weekly Update Friday 7th October 2022

We have had another busy week in Beech. Here is a snippet of what we've been up to!

We carried out an investigation during our science session. We investigated materials to see if they were absorbent or not. We then compared how absorbent they were by measuring how much liquid they absorbed. We took special measures to make sure the tests were fair. You could ask your child about this at home.

In English we watched the clip, 'A Cloudy Lesson.' You can find this on Youtube if you would like to watch it at home together. Next week, we will be writing a set of instructions on, 'How to make a cloud.' In preparation for this, we invited the little ones in from Acorn class and we taught them how to make cloud makers!

Our Art session was focused on, 'Continuous Line drawings.' This was a wonderfully mindful exercise. The children said it helped them to focus in more on the details of the objects they were drawing.
