

Home learning – Thursday 28th January 2021

Good morning everyone.

Today it is Thursday 28th January 2021. You should be really good at writing the date by now. See if you can write it without copying it! I wonder if you can remember which er ir ur digraph is in today?

Morning task:

Reception children

- Read one list of word cards (let me know if you need more!)
- Practise both set of handwriting from last week (videos of the Acorn Home learning page)
- Practise writing your numbers (see the video on the Acorn Home learning page)

Year 1

- Read and write your spelling word for this week (previously taught as ue, oo)
- Today I would like you to read the nonsense and real word and colour the words to show which are real and which are not. Can you say the real words in a sentence?

Maths:

Reception: Oak Academy: [Using everyday language to compare and explore capacities \(thenational.academy\)](https://www.thenational.academy/using-everyday-language-to-compare-and-explore-capacities)

Year 1: Oak Academy: [To measure lengths using non-standard units \(Part 1\) \(thenational.academy\)](https://www.thenational.academy/to-measure-lengths-using-non-standard-units-part-1)

Please upload one example of your work onto Purple Mash so I can mark it and give feedback. Thank you 😊

English: Continue with your adventure story from yesterday!

Science:

- For our science lessons we are going to continue to do the investigations from the crest award materials. I have uploaded the booklet of different lessons. For today we have suggested you do the activity entitled 'brilliant bubbles' but just like last week if you would like to choose a different activity then that is absolutely fine. Over the next few weeks we have planned to do 'slippery slidey', and 'music maker'
- Today's investigation is Brilliant bubbles – *we thought you could do this in the bath!*

Have a good day little Acorns!

Miss Blake
