

Weekly Update – 24th September

Oak Class

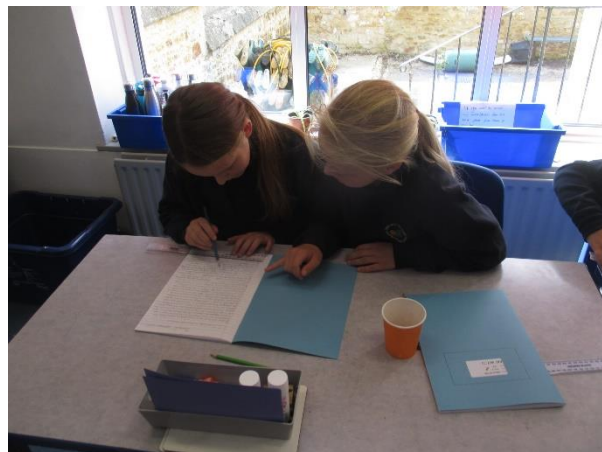

Maths

This week we have been focussing on rounding. This has included numbers from 2 to 8 digits and to consolidate our place value learning so far, we have been playing board games, which the children have loved.

Literacy

In literacy we have been writing our character portrait based on one of the characters from our class text. The children have reviewed and edited their final piece of writing, looking at what they can improve on next time.

Science

In Science, we have been focussing on forces and this week particularly Newton. The children were exploring the difference between weight and mass, and how to measure them.

Just a little note – children **will not** need to come in P.E. kit on Monday.

Have a lovely weekend.

Best Wishes, Mrs Humphrey & Mrs Downes
