

Weekly Update
 Friday 23rd February 2024
 Willow Class

Spring term 2 already! A great first week back. The children have been extremely excited to start learning about the ROMANS!

Maths

This week, we have started our journey with measure. We have been learning and converting length. We have looked at mm, cm, m, and km. We had great fun conducting a length investigation in class!

Length

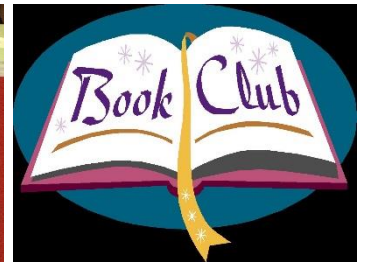

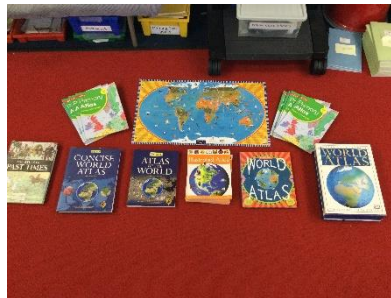

- 1 kilometre = 1000 metres
- 1 metre = 100 centimetres
- 1 centimetre = 10 millimetres

[Length and distance - KS2 Maths - BBC Bitesize](#)

Literacy

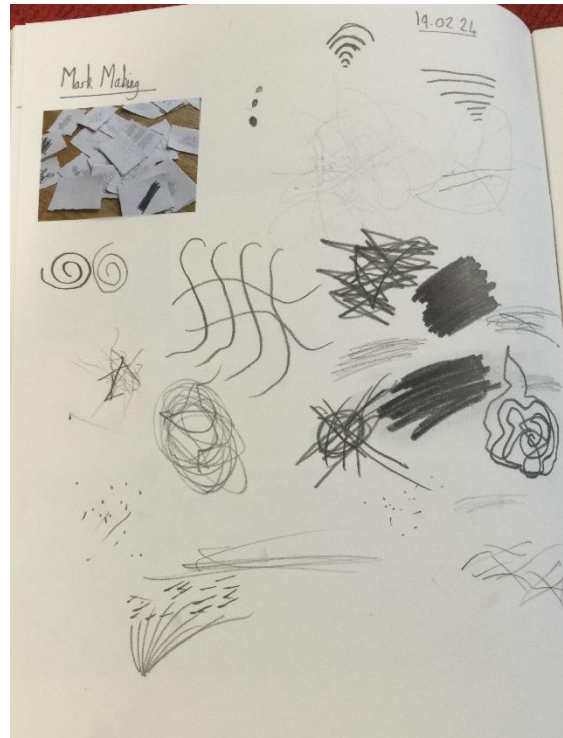

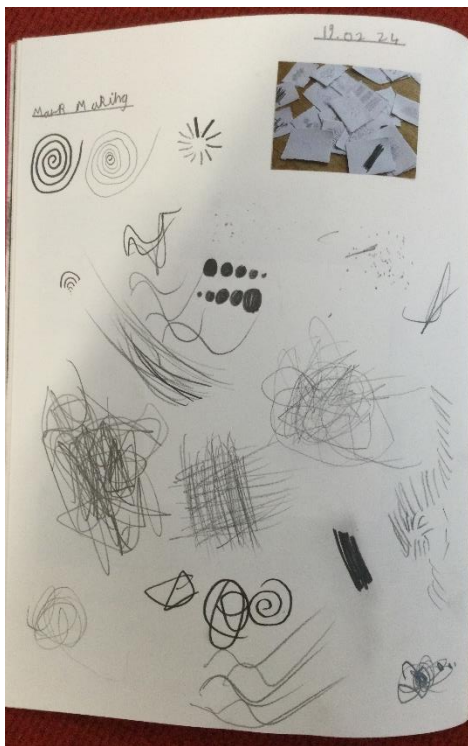

For book club this week, the children were desperate to explore an atlas. This turned out to be one of our favourite book clubs!

I am a Roman Soldier...

Over the next few weeks, we are creating a poem about being a 'Roman Soldier'. This week we have looked at a range of poems and their different features and structure.

We had a wonderful lesson, and all became Roman Soldiers to help us get into character!
