

Beech Class Weekly Update Friday 17th October 2025

PE: Dance Lesson 5: Choreography

Yoga: We're going on a pumpkin hunt!

Writing: This week we began a new unit of writing inspired by the Disney clip, A Cloudy Lesson. The children identified the features of instructions. You could develop this at home by talking about imperative (bossy) verbs. They used them to write a set of instructions.

Maths: Year 1 have been comparing objects and quantities using the language, 'more than and fewer than.'

Year 2 have been making connections using the numberline to 100 - linking what they know to new learning to deepen their understanding. For example:

If I know that 6 is one more than 5 then I know that 76 is one more than 75.

Making connections like this, really deepens children's understanding of the number system. We want children to be able to make connections in

maths - this supports them to develop their reasoning skills.

Geography: We learned about human and physical features. We worked in groups to identify human and physical features in our area.

Thank you for your continued support.

Mrs. Oliveira 😊
