

# Beech Class Weekly Update

## Friday 11<sup>th</sup> October 2024

### Science

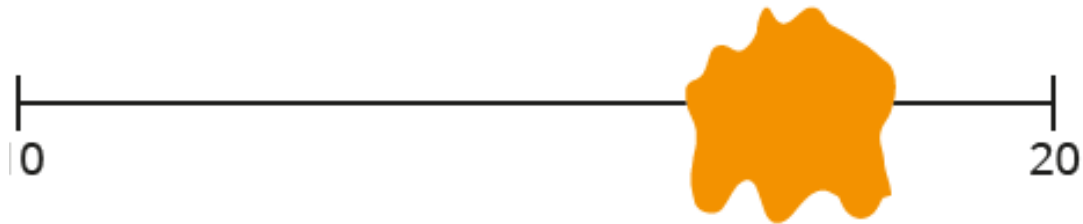

Scroll down on our class page, I have updated our Beech Class photo gallery with some of our super science! Here's a sneak peek, check the page to see the rest.

I've also added some more photos of other areas of learning!

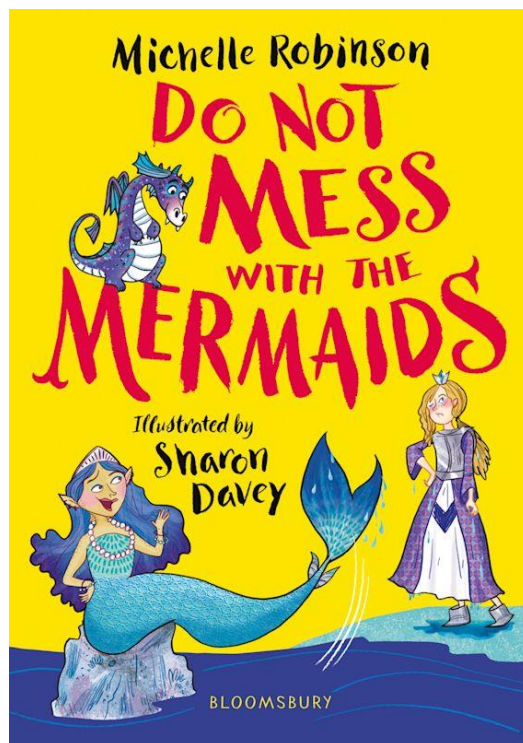

### Maths:

In math's we are continuing with place value in maths. This week our focus has been on using numberlines and ordering numbers. Here's a challenge to try at home. I labelled a number on this numberline but I accidentally spilled my marmalade on there! What number could I have covered?

In our reading lessons we have been reading the book, 'Do Not Mess with the Mermaids' by Sharon Davey.

The contents page really peaked our interest.

*In writing lessons we have been learning how to write instructions on how to look after a baby dragon.*

*PE: Daisy Chain Tag*

*PE Fundamentals: Jumping !*

*Thank you for your continued support.*

*We really appreciate it.*

*Mrs. Oliveira*
