Beech Update:

The children wrote their stories this week. I have just finished reading through them and I can confirm, they're brilliant. It's wonderful to witness the progress they are making from including expanded noun phrases to a wide range of punctuation. They are very impressive! Well done Beech Class.

On Thursday we had a trip to the Key Stage 1 Multiskills May 2026 at The Warriner. It was such good fun. There will be some more photos in Mrs. O'Sullivan's newsletter next week! 😊

In science, our work with materials continues:
LI: I can name and group different materials that can be recycled.

Paper	Wood
Metal	Plastic
Glass	

newspapers

chair

tin

bag

stick

jar

bottle

envelopes

can

perfume bottle

Is this something that you could continue to develop at home? How often do you discuss recycling at home? 😊
