

Week beginning 1st December 2025

We are in the polishing stage of Nativity Rehearsals and feeling extremely proud of Beech and Acorn children.

In writing, we have been including conjunctions in sentences about, 'The Snowman,' by Raymond Briggs.

In science this week, we were comparing mammals and birds. The children noticed that both polar bears and barn owls are carnivores, but they live in very different habitats.

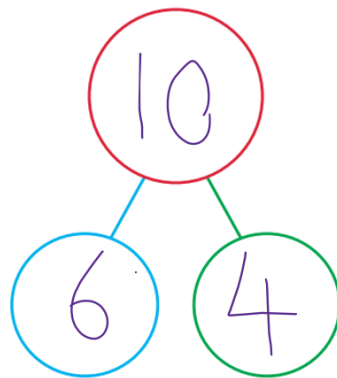

In maths, we have been working on fact families. Try this one out at home:

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square = \square + \square$$

$$\square = \square + \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square = \square - \square$$

$$\square = \square - \square$$

Thank you for your continued support,

Mrs. Oliveira and Mrs. Evans.
