

Week beginning 2nd February 2026

Some Beech Class Updates

Writing: At the moment we are learning how to write adventure stories. During our writing sessions this week, we have focused on sentence structure. The children included conjunctions in their writing.

NSPCC Number Day

As part of our celebration of Number Day, we reminded ourselves of the importance of believing in yourself when it comes to being a mathematician. Maths is not just about memorisation, it's about seeing patterns, reasoning, problem solving and making connections.

Updates and reminders:

- Homework will continue to go out every Friday and should be returned by the following Thursday.
- Please read at home as often as possible and keep a record in your child's reading journal.
- PE takes place on Tuesday and Wednesday afternoons.

Thank you for your continued support.

Mrs. Oliveira
